

## Uploading or Downloading files to the SEINE server

To upload or download photos, you'll need an FTP Client application installed on your computer. If you do not have one, Core FTP LE is a popular free version that can be downloaded from [www.download.com](http://www.download.com) . When you get to their site, search on core FTP.

Set up your FTP software's site manager to connect to the Host: 72.167.131.14. The username is "seinedata", password is: "User1000".

When you've connected to the site, browse to and highlight the files you wish to upload in the right panel of the application, and then click on the arrow pointing to the left.
